## The Future of Alternative Medicine

Four leading guru's in alternative medicine have published a paper that turns Allopathic Medicine upside down. What a rush! Get on the bandwagon. If you've been wanting to go into the medical field to help people get over their illness, but have been hesitant because of the condition of the medical system in America today, think again. You've know why the [Medical System has failed us](#)

**Deepak Chopra, Dean Ornish, Rustom Roy and Andrew Weil** wrote a white paper that states, [Alternative Medicine Is Mainstream](#). Well, it may not be completely mainstream at this time, but it certainly is headed that way. Take a look around and count how many yoga studios are popping up in every city, and those vegetarian cafes, and healthy alternative dining options even in fast food joints. Healthy Living newsletters and magazines abound.

The message is getting out. Every news article shows the epidemics of obesity, diabetes, heart

disease, hypertension, fibromyalgia, arthritis and more. How many commercials for drugs must we watch before we realize our society is sick and getting sicker?

Technology has enabled every Tom, Dick and Harry to do his own research into their problem, note product recalls, drug interactions and inquire at his doctor's office about alternatives to drugs and surgery.

We recommend that you call our world renowned Homeopathic Practitioner Sujata Owens now to get to the core issue of your problem.
